

EDD Hub privacy notice

How EDD Hub collects, uses, stores and shares personal data

Document	EDD Hub privacy notice
Document code	EDD-LEGAL-03
Version	1.1
Effective date	29 June 2026
Company	EDD HUB LTD (company number SC891642)
Registered office	1D Cross Street, Perth, PH2 8JQ
Website	www.eddhub.co.uk
App / platform	www.eddhub.app
Support / complaints	support@eddhub.co.uk
Privacy contact	privacy@eddhub.co.uk
Billing contact	billing@eddhub.co.uk
Classification	PUBLIC

This document is prepared for publication/use with the EDD Hub website and app. It is written for the current MVP operating model and should be reviewed if the product, payments, jurisdictions, data processing, or delivery model changes.

1. Introduction

This Privacy Notice explains how EDD Hub collects, uses, stores, shares and protects personal data.

It applies to:

- drivers
- takeaway owners and business contacts
- takeaway staff using the account
- customers whose information appears on delivery slips or order records
- people who contact EDD Hub
- people involved in disputes, support requests, reports or investigations

EDD Hub is a B2B and B2Driver overflow delivery coordination platform. It helps approved takeaways send overflow delivery requests to approved independent drivers.

EDD Hub is not a customer food ordering app. Customers do not create EDD Hub accounts and do not use EDD Hub directly.

2. Who controls your personal data

For the purposes of UK data protection law, the data controller is:

EDD HUB LTD

Company number: SC891642

Registered office: 1D Cross Street, Perth, PH2 8JQ

Trading as: EDD Hub / Emergency Delivery Driver Hub

Website: www.eddhub.co.uk

App/platform: www.eddhub.app

Privacy email: privacy@eddhub.co.uk

This means we decide how and why personal data is used for the EDD Hub platform.

For some customer/order information, the takeaway may also be an independent controller because the takeaway owns the customer relationship and decides what customer/order information is placed on the delivery slip.

3. Driver data we collect

For drivers, we may collect:

- full name
- phone number
- email address
- account login details
- driver profile photo
- driving licence evidence

- vehicle registration
- vehicle make, model and colour
- MOT evidence where applicable
- insurance document
- insurance expiry date
- right-to-work evidence
- DBS/background check information if later required
- city or cities the driver can work in
- approval status
- suspension/restriction status
- job history
- accepted jobs
- declined jobs
- cancellations
- no-show reports
- issue reports
- notes added by driver
- optional delivery proof photos
- optional GPS/location data where available and needed
- timestamps of app actions
- device, browser and IP information where available
- terms acceptance records

We use this information to manage your account, review eligibility, approve or reject access, help takeaways identify you at collection, operate delivery requests, maintain records, protect the platform and review disputes or safety issues.

4. Takeaway data we collect

For takeaways, restaurants and business users, we may collect:

- business name
- trading name if different
- contact person name
- phone/contact number where used in the app
- email address
- account login details
- pickup address
- city
- pickup area where used
- destination areas used
- billing email
- payment method status
- billing status
- approval status

- restriction status
- request history
- job history
- brand/account switching information
- multi-brand bundle information
- issue reports
- notes added by the takeaway
- terms acceptance records
- invoice records
- payment failure records
- admin action records
- device, browser and IP information where available

We use this information to manage your account, approve your business, operate delivery requests, handle billing, generate invoices, maintain operational records and review disputes or payment issues.

5. Customer and order data from slip photos

EDD Hub does not create customer accounts.

However, customer or order details may appear in uploaded delivery slip photos or order information created by the takeaway. This may include:

- customer name
- customer phone number
- delivery address or partial address
- postcode
- destination area
- order reference
- delivery notes
- order details shown on the slip
- handwritten or printed delivery instructions

We use this information only where needed to operate the delivery request, support collection/delivery confirmation, maintain job records and handle disputes.

Takeaways should only upload information needed for the delivery request.

6. Job and platform data we collect

For each job, we may collect:

- job ID
- run reference
- request type: single or bundle
- takeaway account
- billing takeaway account

- brand account where relevant
- pickup address
- city
- pickup area where used
- destination area
- postcode
- order reference
- driver payment shown
- platform fee
- ready status
- assigned driver
- accepted ETA
- request opened time
- request expiry time
- driver arrival time
- pickup time
- delivery/completion time
- cancellation time
- cancellation reason
- status timeline
- issue reports
- admin actions
- billing events
- invoice records

7. Why we use personal data

We use personal data to:

- create and manage driver accounts
- create and manage takeaway accounts
- review and approve drivers
- review and approve takeaways
- verify driver identity/profile photo
- check driving licence, insurance, MOT and right-to-work documents
- run DBS/background checks if later introduced
- assign users to cities
- allow takeaways to create delivery requests
- broadcast requests to approved online drivers in the same city
- allow drivers to accept, decline, collect and complete jobs
- show accepted driver details to the takeaway
- show job details to the accepted driver
- provide call buttons between driver and takeaway
- generate job IDs and run references

- prevent duplicate job creation
- prevent duplicate job acceptance
- maintain job timelines
- handle cancellations, no-shows and reports
- investigate disputes
- generate billing records and invoices
- collect platform fees
- restrict accounts with failed or unpaid invoices
- protect the platform from fraud, misuse and unsafe behaviour
- comply with legal, accounting, tax and regulatory obligations
- improve platform reliability and safety

8. Lawful basis for using personal data

Under UK data protection law, we need a lawful basis to use personal data. The main lawful bases we rely on are:

Contract

We use personal data where necessary to provide EDD Hub under our Driver Terms or Takeaway Terms.

Examples include account creation, managing login, broadcasting jobs, assigning drivers, maintaining job status, generating invoices and processing platform fees.

Legitimate interests

We use personal data where necessary for legitimate business and operational interests, provided those interests are not overridden by the rights and freedoms of the person.

Examples include fraud prevention, platform safety, account review, document checks, dispute handling, cancellation/no-show review, admin logs, duplicate request protection and platform security.

Legal obligation

We may use or keep personal data where needed to comply with legal, tax, accounting, regulatory, insurance, law enforcement or court obligations.

Examples include invoice retention, accounting records, responding to lawful requests and keeping evidence needed for legal claims or disputes.

Consent

We may rely on consent for specific optional features where required.

EDD Hub does not currently operate a marketing opt-in/opt-out system. Until that changes, EDD Hub sends operational/service messages only.

Where we rely on consent, you can withdraw it.

9. Special category or sensitive information

EDD Hub does not ask users to upload special category data unless it becomes necessary for a specific lawful reason.

However, some documents or slip photos may accidentally contain sensitive information. You should not upload unnecessary sensitive information.

Takeaways should avoid uploading slips that contain excessive personal details beyond what is needed for delivery coordination. Drivers should not upload documents that contain more information than requested unless necessary.

10. Driver documents

For drivers, we may collect right-to-work evidence, driving licence evidence, MOT evidence where applicable and insurance documents.

We use this information to:

- review driver eligibility
- approve or reject driver accounts
- prevent uninsured or unauthorised platform use
- protect takeaways, customers, drivers and EDD Hub
- maintain operational records
- investigate disputes or misuse

Drivers must keep documents accurate and up to date.

If required documents are missing, invalid, expired, unclear or suspicious, we may reject, restrict or suspend the driver account.

11. Driver profile photos

Driver profile photos are used so takeaways can check who is collecting the order.

After a driver accepts a job, the takeaway may see:

- driver name
- driver profile photo
- vehicle information
- phone button
- job ID
- run reference
- collection ETA

This helps reduce wrong handovers and improves safety for takeaways and drivers.

12. Slip photo visibility

Slip photos are not shown to drivers before they accept a job.

Before acceptance, drivers see limited request information such as takeaway name, pickup address, city, destination area, postcode, order reference, driver payment, ready status and expiry countdown.

After acceptance, the slip photo may be shown in the active job or collection flow so the driver can match the correct order or bag.

13. Who we share personal data with

We may share personal data with the following parties where needed.

Drivers

Drivers may receive job information needed to decide whether to accept a request and complete the delivery. Before acceptance, this is limited. After acceptance, the driver may see more order/slip information.

Takeaways

Takeaways may see the accepted driver's name, profile photo, vehicle information, phone button, job ID, run reference, collection estimate and job status.

EDD Hub admin users

Admin users may view user accounts, job timelines, uploaded documents, slip photos, issue reports, billing records, logs and admin action records where needed to operate and protect the platform.

Service providers

We may use service providers for hosting, authentication, database storage, file storage, payment processing, invoicing, email delivery, notifications, analytics/security tooling and support tools.

They may process personal data only as needed to provide services to EDD Hub.

Legal, regulatory or safety bodies

We may share information where required or appropriate with courts, regulators, law enforcement, insurers, professional advisers, tax/accounting advisers, payment providers or emergency services where safety requires it.

14. Payment and billing data

EDD Hub may use payment processors or banking information to manage takeaway platform fee collection.

We do not store full card details ourselves if using a payment provider.

We may store:

- payment method status
- billing status
- failed payment status
- invoice records

- invoice items
- platform fees
- cancellation fees
- payment resolution status

This information is used to manage invoices, collect fees, handle failed payments and keep accounting records.

15. Platform logs

EDD Hub keeps platform logs to operate the service, protect users, prevent misuse and resolve disputes.

Logs may include account actions, job actions, status changes, reports, cancellations, payment events, admin actions and invoice events.

These logs help us understand what happened if there is a dispute, failed delivery, payment issue or safety concern.

16. How long we keep personal data

We keep personal data only for as long as needed for the reason it was collected, unless we need to keep it longer for legal, accounting, tax, fraud prevention, dispute, safety or platform integrity reasons.

Data type	Retention period
---	---
Job records	12 months
Billing records	6 years
Invoice records	6 years
User accounts	Until deleted, closed or suspended, subject to legal/accounting needs
Issue/dispute logs	24 months
Uploaded order/slip images	30 days unless attached to a dispute
Insurance documents	While the driver is active and for a reasonable period after account closure
Driving licence evidence	While the driver is active and for a reasonable period after account closure
MOT evidence	While the driver is active and for a reasonable period after account closure
Right-to-work evidence	While the driver is active and for a reasonable period after account closure
DBS/background check evidence, if later required	While the driver is active and for a reasonable period after account closure
Driver profile photos	While the driver account is active, then deleted after account closure subject to legal/admin needs

Some information may be kept longer where necessary for legal claims, investigations, accounting, tax, fraud prevention, safety, insurance or regulatory reasons.

17. Uploaded slip photos

Uploaded slip photos are normally deleted after 30 days.

If a slip photo is attached to a dispute, issue report, safety report, payment issue or investigation, we may keep it for longer as part of the relevant record.

Takeaways should avoid uploading unnecessary information. Drivers must not save, copy, share or misuse slip photos or customer/order information.

18. Security

We take reasonable steps to protect personal data. This may include:

- account authentication
- role-based access
- admin access controls
- storage access controls
- file access restrictions
- database security
- audit logs
- limiting slip photo visibility before driver acceptance
- restricting access to driver documents
- using secure third-party providers where appropriate

No system is completely risk-free. Users must keep their login details secure and tell us if they believe their account has been accessed without permission.

19. International transfers

Some service providers may process data outside the UK.

Where this happens, we will use appropriate safeguards where required by law. This may include UK-approved contractual safeguards or using providers with appropriate data protection measures.

20. Your rights

Depending on the situation, you may have rights under data protection law, including the right to:

- access your personal data
- correct inaccurate data
- request deletion
- restrict processing
- object to processing
- request data portability
- withdraw consent where processing is based on consent
- complain to the Information Commissioner's Office

Some rights may be limited where we need to keep data for legal, accounting, fraud prevention, dispute, safety or platform integrity reasons.

21. How to make a privacy request

To make a privacy request, contact:

privacy@eddhub.co.uk

Please include:

- your name
- your account email or phone number
- whether you are a driver, takeaway, customer or other person
- what you are asking for
- enough information for us to identify the relevant records

We may need to verify your identity before responding.

22. Complaints

If you are unhappy with how we use your personal data, contact us first:

privacy@eddhub.co.uk

You also have the right to complain to the Information Commissioner's Office.

23. Service messages and marketing

EDD Hub may send service messages needed to operate your account, such as:

- account approval updates
- job notifications
- billing notices
- invoice notices
- payment failure notices
- security messages
- terms updates
- support messages

These are operational messages, not marketing.

EDD Hub does not currently operate a marketing email or opt-in/opt-out system. Marketing communications may be introduced later only with appropriate controls.

24. Cookies and app technologies

EDD Hub may use cookies, local storage or similar technologies for:

- login/session management
- app security

- remembering settings
- preventing fraud
- improving reliability
- basic analytics where enabled

A separate Cookie Notice is provided.

25. Children

EDD Hub is not intended for children.

Drivers must be at least 18. Takeaway account users must be authorised business users.

26. Changes to this Privacy Notice

We may update this Privacy Notice from time to time.

If changes are important, we may notify users in the app, by email, or by requiring users to accept updated terms before continuing.

The latest version will apply from the effective date shown above.
