Website	www.eddhub.co.uk
App / platform	www.eddhub.app
Support / complaints	support@eddhub.co.uk
Privacy contact	privacy@eddhub.co.uk
Billing contact	billing@eddhub.co.uk
Classification	PUBLIC

This document is prepared for publication/use with the EDD Hub website and app. It is written for the current MVP operating model and should be reviewed if the product, payments, jurisdictions, data processing, or delivery model changes.

1. Purpose

This policy explains EDD Hub platform fees, takeaway invoices, manual bank transfer payment, invoice status handling, launch promotions and pricing-plan wording.

It applies mainly to takeaway and restaurant accounts.

2. Driver payment and platform fees are separate

Driver payment is the amount the takeaway offers to the driver for a delivery request. Platform fee is the amount EDD Hub charges the takeaway for use of the platform. These are separate amounts.

During the MVP, EDD Hub does not handle driver payouts. The takeaway pays the driver directly using its existing arrangement.

3. Current lower/subscribed-plan platform fees

Current lower/subscribed-plan platform fees are:

Request type	Platform fee
Single delivery	£1.50
Bundle - 2 drops	£2.50
Bundle - 3 drops	£3.00
Bundle - 4 drops	£4.50

EDD Hub may update platform fees by updating the app, terms, policy, invoice, pricing notice or written communication where appropriate.

4. No-subscription/free plan platform fees

If a takeaway uses EDD Hub without an active paid subscription plan, EDD Hub may place the takeaway on a no-subscription/free plan. The current proposed no-subscription/free plan platform fees are:

Request type	Platform fee
Single delivery	£2.50
Bundle - 2 drops	£3.50
Bundle - 3 drops	£4.00
Bundle - 4 drops	£4.50

The final pricing shown in the app, invoice, written agreement or written EDD Hub communication will apply if it differs from examples in this policy.

5. Subscriptions, launch periods and promotions

EDD Hub may offer more than one takeaway pricing plan. This may include a subscription plan with lower per-run platform fees and a no-subscription/free plan with higher per-run platform fees.

If subscription pricing is introduced, any monthly subscription fee, plan name, billing cycle, trial period, cancellation rule and per-run fees will be shown in the app, during registration, in the takeaway account, on the invoice, or in written communication from EDD Hub before the plan applies.

EDD Hub may offer a first-month launch period or introductory promotion. Unless EDD Hub expressly says otherwise, a free month or promotion does not remove the takeaway's obligation to pay drivers directly, cancellation compensation, valid invoices, or any platform fees that still apply.

6. VAT status

EDD Hub is not currently VAT registered. VAT will not be charged unless and until EDD Hub becomes VAT registered.

If EDD Hub becomes VAT registered, invoices may include VAT from the relevant date and pricing may be updated to show VAT treatment.

7. Weekly invoice period

EDD Hub weekly billing period runs from Monday 06:00 to the following Monday 05:59:59. This keeps late Sunday takeaway trading in the correct operational week.

Invoices are generated or made available on Monday morning after 06:00 for the previous billing week.

8. Billing event timing

A job belongs to the invoice week based on the billing event timestamp created when the driver presses Picked up or Picked up bundle, unless EDD Hub later changes this in writing or in the app.

The platform fee is invoiced according to the billable status rules in the app and EDD Hub's current pricing rules.

9. Invoice contents

Invoices may include:

- invoice number
- takeaway name
- billing email
- invoice week start and end
- invoice generated date
- completed or billable job IDs
- run references where available
- job date/time
- request type
- number of drops
- driver payment shown on the request
- platform fee
- cancellation fees if applicable
- total platform fees

- total cancellation fees
- total amount due
- payment status

10. Manual payment by bank transfer

For MVP, invoice sending and payment handling are manual.

- EDD Hub generates weekly invoices.
- EDD Hub downloads or sends PDF invoices.
- The takeaway pays by bank transfer.
- EDD Hub checks the bank account.
- EDD Hub admin marks the invoice status manually.

Bank details are shown on invoices only, not in this policy or the public terms.

11. Invoice statuses

EDD Hub may use invoice statuses such as draft, sent, paid, overdue, unpaid and resolved. Admin may update invoice statuses after checking the bank account, reviewing disputes or resolving payment issues.

12. Failed or unpaid invoices

If an invoice is unpaid or overdue, EDD Hub may send reminders, mark the invoice as overdue or unpaid, restrict the takeaway account, stop the takeaway creating new requests, keep records for accounting and debt management, or take further recovery action where appropriate.

A restricted account may be unable to create new requests until payment is resolved.

13. Billing disputes

Billing disputes should be sent to billing@eddhub.co.uk. Include invoice number, takeaway name, invoice week, disputed job IDs, amount disputed, reason for dispute and evidence where relevant. You should raise invoice disputes promptly after receiving the invoice.

14. Cancellation fee rule

If a takeaway cancels before the driver has arrived at the shop, no driver compensation is due, no cancellation charge applies unless EDD Hub later changes this, and no normal completed-delivery platform fee applies.

If a takeaway cancels after the driver has arrived at the shop, the takeaway must pay the driver £3 directly, the cancellation is logged, and no normal completed-delivery platform fee applies unless EDD Hub later changes this.

15. No wallet

EDD Hub does not operate a wallet in the MVP. There is no driver wallet, no takeaway wallet, no in-app balance and no in-app driver payout system.
